

A leen[®]5
FROM BIOMASS TO COSMETIC

Biosourced odourless Pentylene Glycol

- ✓ Anti-microbial
- ✓ Solubilizer
- ✓ Emollient
- ✓ Extraction solvent
- ✓ Moisturizer

Specifications and Characteristics

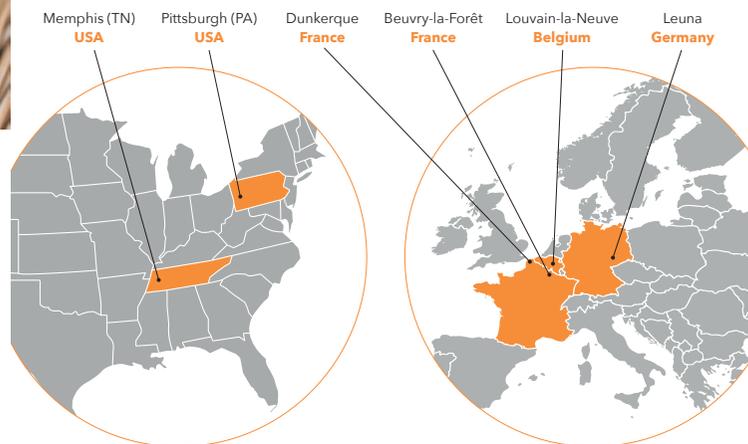

INCI	Pentylene Glycol
CAS REG. N°	5343-92-0
APPEARANCE	Colourless liquid
ODOUR	Odourless
PURITY	Min. 99.0 %
SOLUBILITY	Hydrophilic, readily soluble in water and alcohol
RECOMMENDED PH OF USE	3.0 ▶ 10.0
RECOMMENDED USE LEVEL	0.5 ▶ 5.0 %
REGULATORY STATUS	Globally approved
ORIGIN	derived-natural, 100 % renewable carbon
NATURAL ORIGIN INDEX	1 (ISO 16128)
CHEMICAL STRUCTURE	<chem>CCCC(O)CO</chem>

MINASOLVE[®] is an affiliate of MINAFIN[®] Group

Created in 2004, **The MINAFIN[®] Group**, specializes in fine chemistry for the life sciences and high tech industries. Activities include industrial subcontracting, development of chemical syntheses and industrial scale-up of custom-made processes as well as proprietary products with high added value for the pharmaceutical, cosmetics, agriculture and high-tech industries. Strong synergies exist between all business units: MINASOLVE, MINAKEM, MINAGRO, PENNAKEM, PRESSURE CHEMICALS, MINASCENT and EcoXtract.

Serving market leaders as well as emerging players we support our customers' efforts to improve the quality of life in the global community by:

- ▶ Improving our chemistry and operational excellence today
- ▶ Creating and innovating for tomorrow
- ▶ Driving our enterprises together to **go beyond expectations**

Minasolve[™] Solutions to Protect Your Formulations with A leen[®]5

Biosourced odourless
Pentylene Glycol

- ✓ E-Leen[®] Green A
- ✓ E-Leen[®] Green B
- ✓ E-Leen[®] Green C
- ✓ E-Leen[®] Green OR
- ✓ EasySafe Green A
- ✓ EasySafe Hexam+

MINASOLVE[®]
BIO-INGREDIENTS FOR YOUR APPLICATIONS

**green
solving
attitude.**

WWW.MINASOLVE.COM

Minasolve proposes an innovative range of ready to use solutions based on A-Leen 5. All ingredients have broad-spectrum antimicrobial and long-lasting skin humectant properties.

Bio-based chemistry is penetrating all market segments and is promoted more and more to consumers of final products. Cosmetic and beauty care are industries where this trend is strongly growing and provides challenges to the key players to develop new formulations in line with consumer demands. New formulations mean new ingredients with a stronger sustainable approach for the production of the raw material and the final products. **Minasolve is helping in such achievement by proposing bio-ingredients developed under green chemistry principles** to cope with market demands

and customer focus. **One of the key ingredients** developed for this market segment is **A-Leen 5** which has been developed and produced with a proprietary process established in by Minasolve's sister company Pennakem, specialized in green chemistry. This bio-based ingredient has now proven its versatility in cosmetic formulations and brings multiple benefits to the final products.
