

Specifications and Characteristics

NAME	E-LEEN 8	E-LEEN P8	E-LEEN GC 8
INCI	Caprylyl Glycol, Glycerin, Water	Caprylyl Glycol, Phenylpropanol, Water	Caprylyl Glycol, Glycerin, Caprylate/Caprates, Glycerin
ASPECT	Liquid, colorless	Liquid, colorless	Liquid, almost colorless
ODOUR	Faint, characteristic	Faint, aromatic	Faint, characteristic
MELTING POINT	≈ 13°C	< 5°C	< -10°C
WATER SOLUBILITY (20°C)	0,9%	0,9%	< 0,1%
pH OF USE	3.0 ▶ 10.0 (unlimited)	3.0 ▶ 10.0 (unlimited)	4.0 ▶ 7.0
USE LEVEL	0.5 ▶ 2.0%	0.5 ▶ 2.0%	0.5 ▶ 2.0%
NATURAL ORIGIN INDEX	1 (ISO 16128)	1 (ISO 16128)	1 (ISO 16128)

The given information is accurate to the best of our knowledge. Buyers are advised to make their own studies on the usefulness of any product for a particular application or purpose. Recommended usage information is only provided as indication, and should not be considered as recommendations to use the products in violation of any patents, intellectual property rights, laws, or regulations relating, but not limited to, manufacture, composition, product design or end usage.

MINASOLVE® is an affiliate of MINAFIN® Group

Created in 2004, The Minafin® Group is an expert in Health Chemistry, Green Chemistry and Challenging Chemistry. Activities include industrial subcontracting, development of chemical syntheses and industrial scale-up of custom-made processes as well as proprietary products with high added value for the pharmaceutical, cosmetics, agriculture and high-tech industries. Strong synergies exist between all business units: MINASOLVE, MINAKEM, PENNAKEM, PRESSURE CHEMICAL and MINASCENT.

Serving market leaders as well as emerging players we support our customers' efforts to improve the quality of life in the global community by:

- ▶ Improving our chemistry and operational excellence today
- ▶ Creating and innovating for tomorrow
- ▶ Driving our enterprises together to go beyond expectations

E-Leen 8, P8, GC 8 from MINASOLVE: THREE CLEVER MIXTURES BASED ON NATURE-DERIVED CAPRYLYL GLYCOL

For sustainable & natural cosmetics

Eco-responsibility is at the heart of MINASOLVE's global strategy. Our mission is to continuously offer innovative products while ensuring respect for people and the environment.

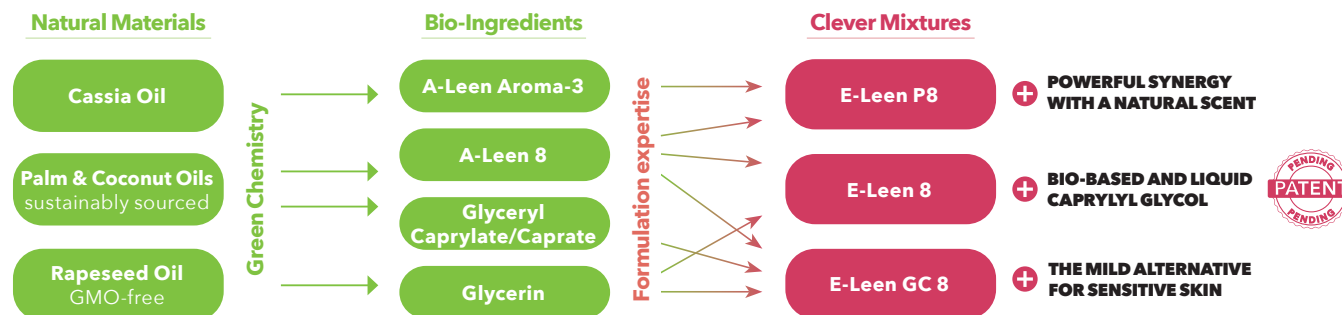

E-Leen 8, P8 and GC 8 are able to create self-preserved and **nature-based formulations**. All three products are of **100% natural origin**, **COSMOS** and **NATRUE** approved.

Each of the three products contains our **pioneering bio-based Caprylyl Glycol (A-Leen 8)** that is produced via green chemistry from sustainably sourced palm kernel oil. The utilized raw materials are all **GMO-free** and **100% vegetal**.

E-Leen 8, P8 and GC 8 are already efficient at **low use levels** and at **various pH-levels**. Being free of conventional preservatives, they represent an **unparalleled economical** option for the **alternative protection of natural cosmetics**.

All three solutions are **stable** and **easy-to-use liquids**. The high-performance ingredient Caprylyl Glycol therefore becomes **suitable for cold and continuous processing**. The resulting savings in time and energy during formulation and production contribute to the **overall ecological approach** behind these three ingredients.

MINASOLVE Green Solving Attitude: From natural & sustainable sourcing to clever antimicrobial solutions

Performance in microbial challenge tests

Phase	Raw material	INCI name	%
A	Demineralized Water	Aqua	ad 100
	Xanthan Gum N ⁽²⁾	Xanthan Gum	0.5
	Emulgade PL 68/50 ⁽³⁾	Cetearyl Glucoside (and) Cetearyl Alcohol	5.0
	Shea Butter ⁽⁴⁾	Butyrospermum Parkii (Shea) Butter	3.0
B	Jobba Oil ⁽⁴⁾	Simmondsia Chinensis (Jojoba) Oil	3.0
	Hazelnut Oil ⁽⁴⁾	Corylus Avellana (Hazel) Seed Oil	3.0
	Bioxan T70 ⁽⁵⁾	Tocopherol	0.1
C	aq. Citric Acid / NaOH	Citric Acid / Sodium Hydroxide / Aqua	pH 4.5 ▶ 8.0
E	E-Leen 8 / P8 / GC 8 ⁽¹⁾	Caprylyl Glycol + X ...	0.5 ▶ 1.5 %

O/W emulsion

Phase	Raw material	INCI name	%
A	Demineralized Water	Aqua	ad 100

Standalone antimicrobial solutions

- Each of the three E-Leen solutions is effective as a standalone protection agent for various types of personal care products.
- E-Leen P8 can also act synergistically in combination with E-Leen GC 8 for very hard to preserve formulations.
